CONSTRUCTED PROJECT PROTFOLIO

Lakar Design Studio, est 2012

LDS provides design services to clients wanting to develop a construction idea. The construction task is undertaken by the clients own appointed construction team based on the design information provided.

Lakar Design and Construction, est 2015

LDNC provides one stop solution service to clients looking to design and build a construction project. We handle all physical aspects of the project from inception to the requested level of finishing required by the client.

Lakar (Malaysia) Sdn Bhd, est 2021

LAKAR is the combination of the two services under a limited liability company in order to further develop and grow the business model to cater to more market demand.
