Raman-san,

Thank you so much for the wonderful speech. I enjoyed interpreting it as well as preparing for it. I have learned a lot about Malaysia from your speech. It was really interesting and I am sure the audience also enjoyed your speech.

As you may know, Japanese people are reserved and not so active in questioning after a speech, but they were active and asked questions and the event was interactive, which demonstrated that your presentation was interesting and they found relaxing atmosphere in your gentle personality.

I also hope the relationship between Sendai and Malaysia that has been resumed by you will deepen further and that we also will have an opportunity to meet again sometime in the future.

Best regards,

Kana Sakai
